Race Gas®

Race Fuel Concentrate

Race Gas race fuel concentrate is designed to blend with pump gasoline and transform it into high-octane, high-energy, track-grade racing fuel! Two ounces will raise the octane of one gallon of gasoline four full octane numbers. No matter what type of fuel you're using or what octane you desire, it will help you achieve the blend for your engine's off-road needs!

Race Gas Ultra fuel concentrate is specifically designed for the requirements of very high compression, boosted or nitrous engines. When mixed with pump gasoline, it will create racing fuel with octane between 108 and 112!

In California, this product may not be used upon a highway and only used for race purposes.
